Renu Jogi Basic Ophthalmology Fourth Edition. Pupil size influences accommodation by controlling the amount of light entering the eye. In a bright light the pupils are constricted. In a dim light they are dilated. If the pupils were dilated in a bright light, too much light would enter the eye and damage the retina.

Basic Ophthalmology 4th Edition PDF It is something I wish was available to me when I was an undergraduate student not too long ago. The past few years have witnessed not only an alarming multiplication of information in the field of ophthalmology, but more significantly, a definite paradigmatic shift in the focus and direction of ophthalmic research and study.
