[Spares – BUKH](#)

The DV29RME is designed and constructed as a genuine marine engine - it is not a "marinized" industrial engine. Through a simple design the service of the engine is carried out very easily. A BUKH does not vibrate due to a well-balanced system of rotating counterweights in the engine neutralizing all vibrations.

[Bukh DV20 – YBW](#)

BUKH DIESEL UK have provided new engine sales, service and genuine BUKH parts worldwide to Boat Builders, Operators and Owners alike for over 27 years. Now as part of Proteum we will continue to be a company you can rely on.

[Bukh DV20 Engine – Richard Spencer](#)

Bukh DV marine engines have very little vibration. Dynamic balancing by means of an advanced system of rotating counter-weights takes care of the movements of pistons and connecting rods which would otherwise make the engines vibrate. Automatic fuel control ensures precise amounts of fuel are fed to the engine under any conditions.

[Bukh Marine Engines for sale UK – used Bukh Marine Engines –](#)

All engines come with a two year warranty. Our engines are not marinized auto or industrial engines. They are designed and built directly for the tough marine environment. All engines are of cast iron construction and engineered for a very long life at sea. As of 2007, we celebrate 101 years of marine engine manufacture.

[Bukh DV10 DV20 Engine pdf Workshop Service Repair Manual](#)

Bukh DV20 Recently the engine has developed the habit of stopping when I throttle back to idle speed or try to put the engine in reverse. This causes real problems when trying to manoeuvre in a confined space such as a lock or in coming alongside a pontoon.
