Caterpillar C10 Engine For Sale - 61 Listings | TruckPaper ...

- The engine may require a slightly longer period of time to start-up. The engine may run rough for a few seconds until the ECM determines the proper firing order by the use of the primary engine speed/timing sensor only.
- The engine will start and the engine will run when only one sensor signal is present from either of the sensors.

The Caterpillar C10 is 10.3 liter diesel engine used in trucks and buses. It was introduced in 1995 and was replaced by the Caterpillar C9 in 2004. The engine featured an Electronic Control Module (ECM) with ATA/SAE standard data links. The ECM boasted the ability for fleet managers to analyze how the vehicle and engine and determine the most ...

Engine timing

I was told that was the atmospheric sensor. This truck originally had a 435 5EK in it but it broke the crank at 1.6 million. So this engine is a little new to me as far as sensor placement. When I bought the engine used and got a new 40 pin to 70 pin connector from Cat these have been my only problems.
