~~Convert Electric Choke To Manual~~

Most new cars are fitted with an automatic choke rather than a manual one. The choke automatically opens and closes the choke butterfly (or valve) in the carburettor depending on the temperature of the engine. It may be plumbed directly into the cooling system, or linked electrically to the

If it were me and based on the fact that many parts are hard to come by (and expensive) over there, I would go with the electric conversion. Finding all of the manual changeover parts (incl choke cable and brackets) might prove a chore. HOLLEY offered at one time an inlet fitting with screen (FILTER) to negate the need for the feed tube.

Hey Guys, what's involved with switching from electric choke to manual choke on an edelbrock carb. I've been trying to find a manual cable bracket but so far no good, might have to call edelbrock and see if they'll sell me one even if they don't list it for sale. As anyone here done this conversion?

Manual Choke to Electric Choke Carburetor Conversion. by cculella on Wed Nov 16, 2011 3:00 pm. Like the title says, I am looking to replace my manual choke carb with a electric choke carb for my 1965 230 straight six. Winter is coming fast and it would be nice to have a faster starting van.

~~Manual Choke Conversion, 1978 Mercury Grand Marquis~~

Is there anyway to convert the electric choke quadrajets to a manual set-up? Seems like I read or heard somewhere that its not possible for some reason. I just bought one off a running truck for \$10, and can trade it to a Manual Choke model, but it needs rebuilt. Its going on a 307 with HEI ignition.

Converting From Electric To Manual Choke Carburetor. I was wanting to convert my electric choke Holley carburetor over to a manual choke Edelbrock carburetor. I was wondering if someone could explain how to do this cause I was thinking about doing it but not sure how.

~~Hand Choke installation (on my chevy truck)~~

The choke cable when installed correct closes choke when cable is pulled, opens when pushed. Cable when mounted should exit towards rear of carb, closes to fire wall. Sounds like lever is upside down. Don't recall ever using a ball detent anywhere. Think I still have a manual choke conversion kit with instructions in my shop.
