be careful of the wire connector on the glove box light- make sure to disconnect before pulling on the glove box to remove if you found this helpful please like and share! subscribe for more ...

Glove Box Removal: I Am Unable to Remove Glove Compartment ...
The last step is to replace the glove box. The glove box is held on by four screws and has tabs that keep it locked in to the dash. Once the screws are removed and the dash is bypassed the glove box will come out. The glove box is self-contained, as it includes the box, handle, lock and tabs that allow it to swivel when it opens.

How to Replace a Nissan Glove Box Latch | It Still Runs
The glove box cover in my HRV is scratched up pretty bad, anyone know how to remove the glove box to replace a new one? I could see 2 screws at the top when opening the box, but not sure if there are any screws at the bottom.

How to Open a Jammed Glove Box in a Honda | It Still Runs
Remove those screws. After you remove those screws, disconnect the glove box lamp from its electrical connector. Now pull the glove box straight towards you. You'll feel like something is hanging up on the right side; that's a large plastic clip. Keep puling straight out until you hear the glove box pop loose from that large plastic clip.

Removing the Glove Box | Jeep KJ and KK Liberty Forum
Disregard that. Whenever you can, open the glove box, then look inside at the top, there is a thin plastic flap at the top, push up with moderate pressure while pulling down on the box and it will drop all the way down. Hope this helps. 17 people found this helpful.

How to Remove The Glovebox. ... - Naza 206 Bestari
Now you can see the ECU and all it's wiring. Disconnect the three big white connectors going to the ECU. Remove this 10 mm nut on the top bracket of the ECU. Remove this 10 mm nut on the bottom bracket of the ECU. Rotate and twist the ECU until you get it out. Hint: it comes out the bottom.

How do you get the dang glove box to come out of a 2009 ...
Apply light lubricant oil to an edge of the lint-free cloth. Wipe the edge of the lint-free cloth around the edges of the glove compartment lid to remove lint and loose dust and lubricate the edge so it won't stick to the glove compartment.
