04\_Membrane\_Structure-2 - Membrane Structure POGIL... A plasma membrane compartmentalizes internal structures while the cell membrane acts as a boundary between the cell and the external environment. Model 1 - Phospholipids 1. Refer to Model 1. Identify at least two organic functional groups in a phospholipid molecule.

Product Details. Flinn Scientific is excited to join with The POGIL Project™ to publish this series of student-centered learning activities for advanced placement biology. Integrate scientific practices, reasoning and inquiry in the AP Biology curriculum with 31 interactive, guided-inquiry learning activities in six major topic areas.

[Membrane Structure Pogil Key - Joomlaxe.com](#)

The concentration of solutes will be the same on both sides of the membrane as water continues to move back and forth. Diffusion is the movement of molecules across a membrane from an area of high concentration to an area of low concentration.
