Pressure Reducing & Surplussing Valves | US | Spirax Sarco

Pressure reducing valves - Spirax-Sarco Engineering

Spirax-Sarco SRV25 Series Pressure Reducing Valves

Spirax-Sarco Pressure Reducing Valves for Heating and Cooling

Spirax Sarco Pressure Reducing Valves - Johnson Valves

Spirax Sarco Pressure Reducing and Surplussing Valves can reduce or maintain steam pressure accurately, reliably and economically to suit the application. We use cookies to give you the best experience on our website. If you continue without changing your cookie settings, we assume that you consent to our use of cookies on this device.

DP17, DP17E, DP17G, DP17R, DP17Y and DP27G Pilot Operated ...

operated pressure reducing valves on steam applications but can be used as a guide when the valve is used on compressed air applications. The DP143G and DP163G are recommended for compressed air applications, both having a nitrile seal for the main valve and pilot valve assemblies.

Spirax Sarco 25 Series Pressure Reducing Valve - How to Troubleshoot

Spirax Sarco Pressure Reducing & Surplussing Valves can reduce or maintain steam pressure accurately, reliably and economically to suit the application.

Pressure Reducing & Surplussing Valves | UK | Spirax Sarco

View and Download Spirax Sarco DP17 installation and maintenance instructions manual online. Pilot Operated Pressure Reducing Valves. DP17 Control Unit pdf manual download. Also for: Dp17e, Dp17y, Dp27g, Dp17g, Dp17r.

Pressure Reducing & Surplussing Valves | Finland | Spirax ...

Page 7 General Inspection While a program of planned maintenance is always to be inspecting and Replacing Pilot Valve recommended, the Spirax Sarco 25P valve will give long Diaphragms (Refer to Fig. 6 and 9) and trouble-free service if correctly selected, installed and kept reasonably free of dirt and foreign matter.

DP143, DP143G, DP143H and DP163, DP163G, DP163Y Pilot ...

recommended if practicable to check supply pressure. An adequately sized Spirax Sarco safety valve may be necessary to protect the downstream system. It is important to ensure that there is sufficient difference between the no-load set pressure of the BRV71 or BRV73 and the reset pressure of the safety valve (if one is fitted) to prevent nuisance operation. Recommended installation

SPIRAX SARCO DP17 INSTALLATION AND MAINTENANCE ...

Spirax-Sarco SRV25 Series pressure reducing valves, which reduce steam pressure when it is needed at the point of use.

BRV71 and BRV73 Pressure Reducing Valves

Spirax Sarco Bronze Pressure Reducing Valve Direct acting bronze pressure reducing valve with a stainless steel seat, suitable for water applications. Size : 1/2" (15mm) to 1" (25mm)

Pressure Reducing Valves Spirax Sarco

Spirax Sarco Pressure Reducing & Surplussing Valves can reduce or maintain steam pressure accurately, reliably and economically to suit the application

Spirax-Sarco 25 Series Pressure Reducing Valves for ...

Joe Radle, Senior Applications Engineer with Spirax Sarco, Inc., explains and demonstrates how to determine if the Pilot Valve or the Main Valve, in the Spirax Sarco 25 Series Pressure Reducing ...

SPIRAX SARCO 25P INSTALLATION AND MAINTENANCE INSTRUCTIONS ...

DP27, DP27E, DP27G, DP27Y, DP27R and DP27Y pilot operated pressure reducing valves have bodies manufactured using SG iron. These products are not suitable for oxygen service. Available types DP27 Suitable for steam or compressed air applications. DP27E Suitable for steam applications. It incorporates an electrical

DP27, DP27E, DP27R and DP27Y Pilot Operated Pressure ...

Note: For lower operating temperatures consult Spirax Sarco. PMX Maximum differential pressure is limited to the PMO Designed for a maximum cold hydraulic test pressure of: 38 bar g (551 psi g) Note: With internals fitted, test pressure must not exceed: 25 bar g (362.5 psi g)

Pressure Reducing & Surplussing Valves | US | Spirax Sarco

The Spirax Sarco DP163 is a self-powered, pilot-operated, pressure reducing regulator constructed entirely of 316 stainless steel, suitable for steam, air or industrial gases. Its

Pressure reducing valves - Spirax-Sarco Engineering

Category Tree. Spirax-Sarco pressure reducing valves reduce steam pressure when it is needed at the point of use. Spirax-Sarco offers both pneumatic signal and actuator operated valves that automatically reduce high initial pressure to lower delivery pressure. They are suited for installations in pressing irons, steam cookers, sterilizers,....

Spirax-Sarco SRV25 Series Pressure Reducing Valves

Pressure Reducing Valves Spirax-Sarco pressure reducing valves reduce steam pressure when it is needed at the point of use. Spirax-Sarco offers both pneumatic signal and actuator operated valves that automatically reduce high initial pressure to lower delivery pressure.

Spirax-Sarco Pressure Reducing Valves for Heating and Cooling

Spirax-Sarco steam control valve (main valve only) for pressure and temperature, model 25, with a 1-1/4" NPT connection and a 250 psi maximum operating pressure for use in combination with a 25P pressure pilot, 25T temperature pilot, 25PT both, or other pilots that are air actuated, electric, or back-pressure.
