The Range Rover Classic is a 4x4, mid-size Sport utility vehicle series produced from 1970 to 1996 - initially by the Rover (later Land Rover) division of British Leyland, and latterly by the Rover Group. The first generation of vehicles produced under the Range Rover name, it was built as a two-door model for its first 11 years, until a four-door also became available in 1981.

The Discovery II and the Range Rover P38 were the pivotal points for Land Rover's mission. They still had off-roading in mind when designing them, but definitely focused more than ever on how they performed on the street. After all, most Range Rover and Land Rover owners will never actually take them off-road.

This is how I replaced the original Land Rover heater core on my 2000 4.6 HSE with a late 90's Audi A6 heater core. Why? The o-rings in the join between the LR heater core and the pipes that go to the engine are prone to leaking, either due to knocking the pipes while working on the engine or due to age and brittleness of the o-rings themselves.

The Range Rover (LP) is the second-generation Range Rover model from British car maker Land Rover. It was launched on 28 September 1994, 24 years after the introduction of the first-generation Range Rover. It included an updated version of the Rover V8 engine, with the option of a 2.5-litre BMW six-cylinder turbo-diesel.
