Biochemistry Study Guide - Videos & Lessons | Study.com

Biochemistry is the application of chemistry to the study of biological processes at the cellular and molecular level. It emerged as a distinct discipline around the beginning of the 20th century when scientists combined chemistry, physiology and biology to investigate the chemistry of living systems.

Biochemistry Review Packet 1 BIOCHEMISTRY UNIT ASSESSMENT Student Review Packet Properties of H₂O I. Write a description for the following properties of water: Universal solvent -- Capillary action -- Surface tension -- Polar molecule -- Expands upon freezing -- II. Which feature of water explains why water has high surface tension?

Burgess, Lauren / Unit 1: Biochemistry

A great demonstration to start this unit is "Iron in Breakfast Cereal". You can have students observe the iron in breakfast cereal doing this hands-on activity using zip-lock plastic bags, "Does Breakfast Cereal Really Contain Iron?" A good topic for PreAP students to research is "Iron Overload in the Body" or hemochromatosis.
